

How do I activate my LuxTrust product?

After having received your device and the LuxTrust codes by letter or SMS, you will have to activate your LuxTrust certificate.

To do the first activation of your LuxTrust account, please visit our website under MYLUXTRUST > MY CERTIFICATE > ACTIVATE and follow the instructions or click [here](#).

Attention: If you do not proceed to the first activation within 60 days from the order, your certificate will automatically and irreversibly be unusable. You will have to order a new device at your expense.
